

Transforming HIV Care

Providing Healthcare Teams
with Education and
Capacity-Building Support

www.aidsetc.org

The AETC Program provides individualized, interprofessional, HIV-related education, capacity-building, and technical assistance to healthcare teams and clinics through:

- Didactic presentations
- Case-based interactive discussions
- Communities of practice
- Self-study resources
- Clinical preceptorships
- Clinical consultation
- Coaching for capacity building

The AETC Program is funded by the Health Resources and Services Administration, HIV/AIDS Bureau (HRSA HAB) and is the training arm of the Ryan White Program.
