## Data Collection Codebook for Reporting 2020–2021 Data

### HIV/AIDS Bureau

Health Resources and Services Administration  
U.S. Department of Health and Human Services  
5600 Fishers Lane, Rockville, MD 20857

**Public Burden Statement:** An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this project is 0915-0281. Public reporting burden for this collection of information is estimated to average 10 hours, including the time for reviewing instructions, searching existing data sources, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to HRSA Reports Clearance Officer, 5600 Fishers Lane, Room 14N39, Rockville, Maryland, 20857. Expires June 30, 2022.

## Chapter I: National Database

This chapter provides information on variable names, coding conventions, and standards for creating data sets for each form. Effective as of the second quarter of 2016, each RWHAP AETC will submit three data files each year—one for the PIF, one for the ER, and one PL.

### Data Collection Conventions

#### *AETC Codes*

A correct RWHAP AETC code number must be included for every record. These AETC codes are assigned by HRSA HAB as listed below:

- 08 = New England AETC
- 72 = Northeast Caribbean AETC
- 73 = Mid-Atlantic AETC
- 74 = Southeast AETC
- 75 = Midwest AETC
- 76 = South Central AETC
- 12 = Pacific AETC
- 77 = Mountain West AETC

*RPS Codes*

Regional partners are assigned an RPS code by HRSA HAB. These are listed below. If a new regional partner is identified after the publication of this manual, the Regional AETC must contact their HRSA HAB project officer to obtain a code number for that entity.

Code	Regional AETC	Name of Partner	Location
101	MidAtlantic AETC	University of Pittsburgh	Pittsburgh, PA
102	MidAtlantic AETC	Howard University	Washington, DC
103	MidAtlantic AETC	Christiana Care	Wilmington, DE

## Chapter II: Coding Conventions and Data Submission

This chapter provides information on variable names, coding conventions, and standards for creating data sets for each form. Each RWHAP AETC will submit three CSV data files each year—one for the PIF, one for the ER, and one for the PL.

### General Instructions

Participants should be instructed to read the directions carefully and complete each item on the form that applies to their role.

Most questions on the PIF and ER allow only one response. Please select the most accurate response, unless otherwise instructed.

### Missing Values

Unless otherwise noted in the codebook, a system missing (.) should be assigned for all numeric variables, when an item is left blank. For all string variables, a blank or null character string will indicate missing values (unless otherwise noted in the codebook). Other user-defined missing values (e.g., 9 or 99) will be regarded as out-of-range values for the purposes of national quality assurance. The data will be returned to the RWHAP AETC for correction. The ER does not allow for missing values; the PIF allows for selected skipped questions due to participant experience.

### Data File Names

Data from each form type should be submitted as a separate data file using the following naming convention: **aaaxxyy**. Where:

- **aaa** or **aa** is the form name (PIF, ER, PL).
- **xx** is the assigned RWHAP AETC code number (see page 2).
- **yy** indicates the last two digits of the fiscal year. The fiscal year begins July 1 and ends June 30.
- For example, a data submission from the Pacific AETC would be: PIF1221, ER1221, PL1221.

## Chapter III: Codebook

The following section presents the coding conventions and variable names that should be used in creating the data file submissions.

### *Participant Information Form (PIF)*
