AETC AIDS Education & Training Center Program

HIV Care Tools

A mobile application for the clinical care team

Efficient & Trustworthy

HIV Care Tools is your trusted resource for quick, streamlined, point-of-care HIV information.

The app includes reference material, tools & resources for busy clinicians serving people with or at risk for HIV. Aligned with the strategies of the Ending the HIV Epidemic, HIV Care Tools provides the most up-to-date information on HIV diagnosis, treatment, prevention & how to quickly respond to outbreaks. The information included was developed by the AIDS Education & Training Center (AETC) Program and other federally funded programs.

Easy to access
Free to use

HIV Care Tools is free to use and can be accessed anywhere.

This app is easy to use and can be used on or off line which is especially helpful for healthcare providers practicing in rural or remote areas. There is no cost to download the application. It is available through the App Store and Google Play for Apple & Android devices.
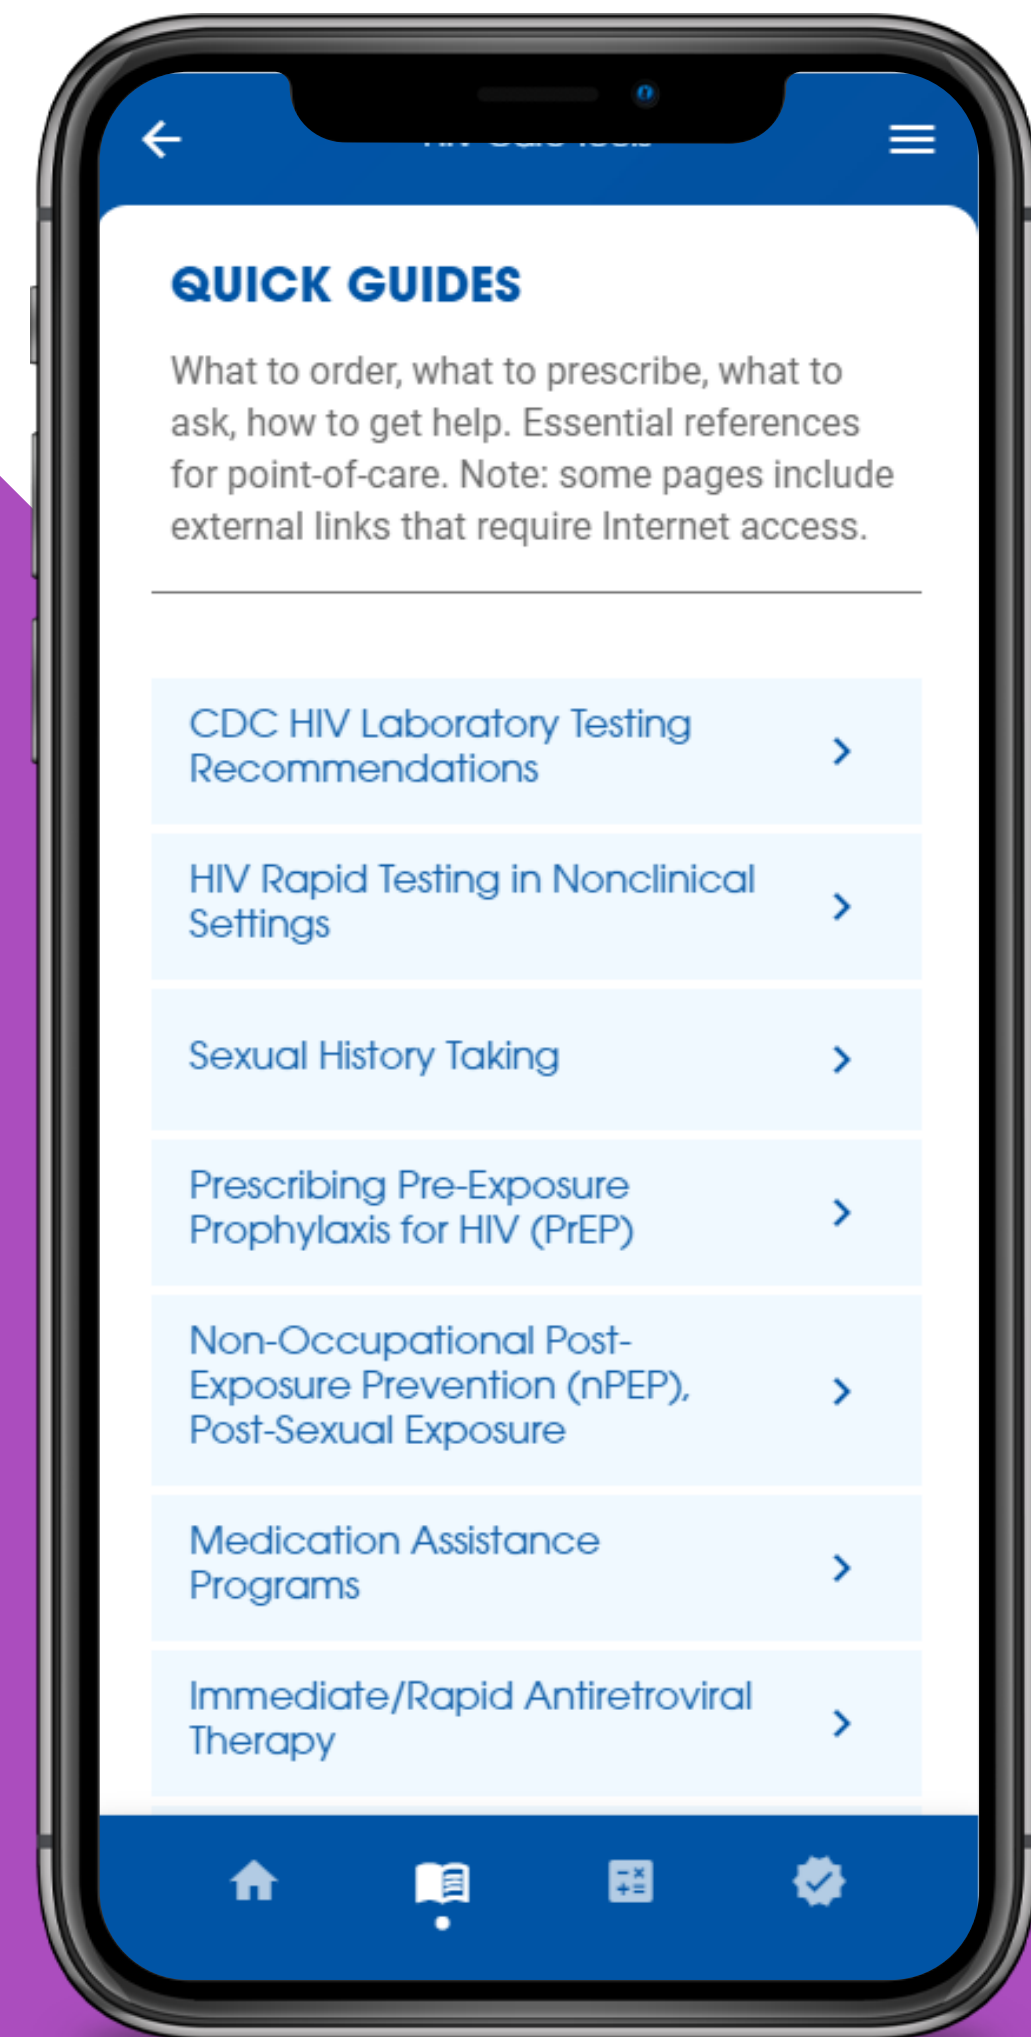

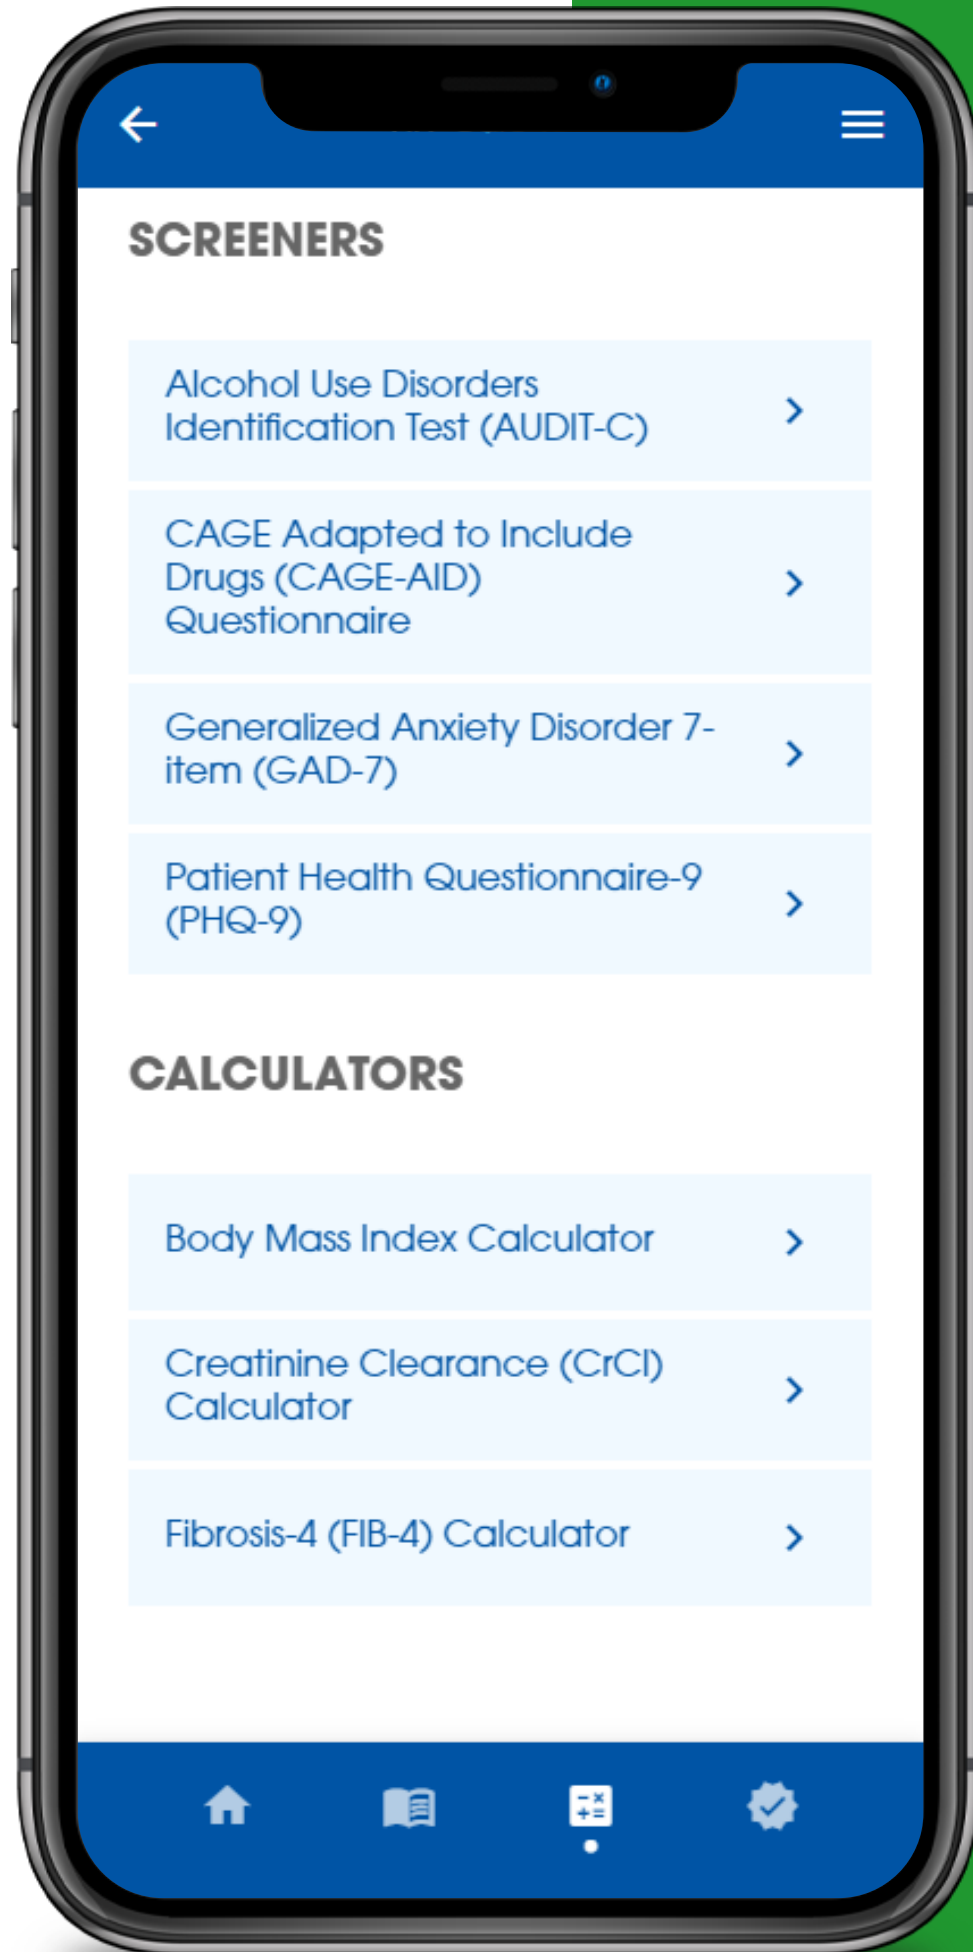

HIV Care Tools is for

- Expert-to-novice clinicians
- Clinic staff & care team members
- Pharmacists
- Health profession students, residents & fellows

It can be used in a range of clinical settings, including emergency departments, primary care, and STD and reproductive health clinics.

QUICK GUIDES

Provide guidance on HIV testing, prescribing and monitoring PEP, PrEP, rapid initiation of antiretroviral therapy, and more.
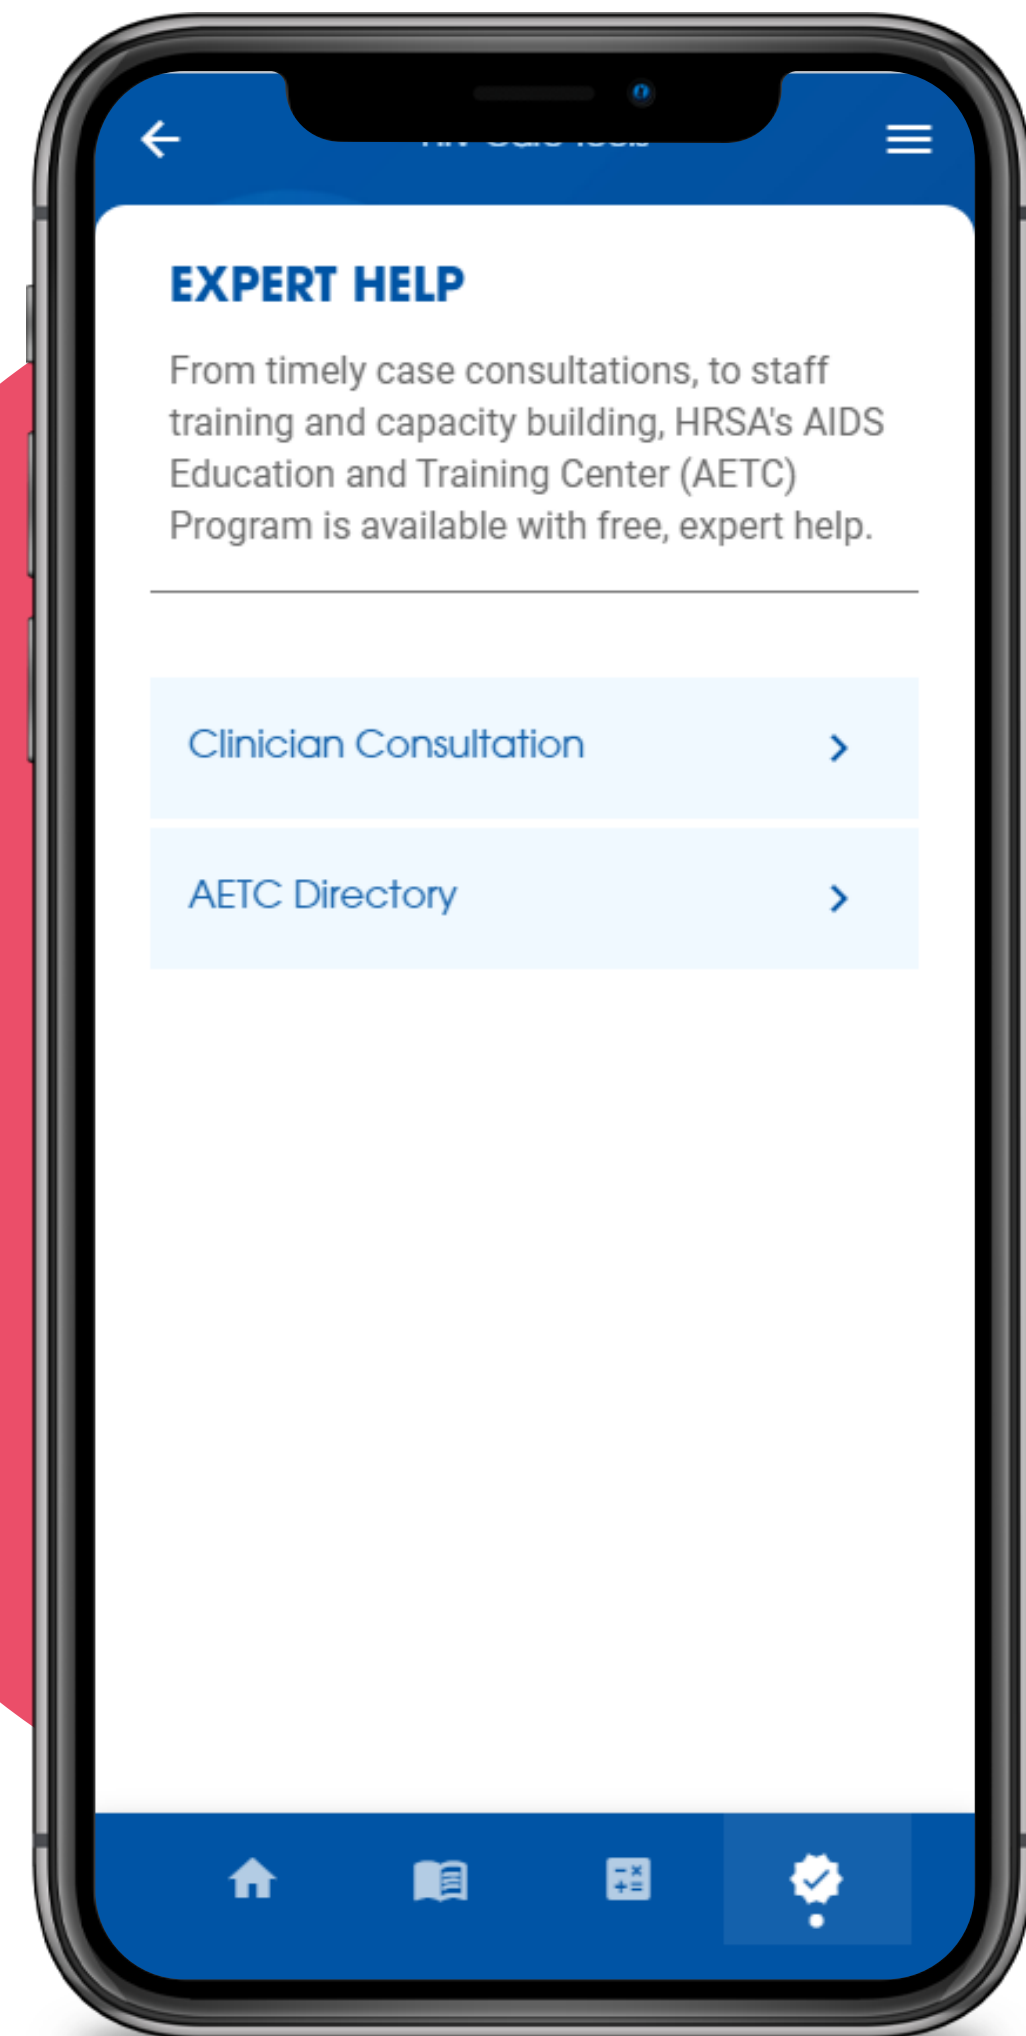

QUICK GUIDES

What to order, what to prescribe, what to ask, how to get help. Essential references for point-of-care. Note: some pages include external links that require Internet access.

Body Mass Index Calculator >

Creatinine Clearance (CrCl) Calculator >

Fibrosis-4 (FIB-4) Calculator >

SCREENING TOOLS

Offers validated mental health screening tools and commonly needed clinical calculators.

EXPERT HELP

One-touch access to phone-based, free, national clinician warmlines for expert support with HIV prevention and care, substance use, hepatitis C, and COVID-19 through the AETC National Clinician Consultation Center.

Connect with an AETC Program site in your region for free technical assistance, staff training, and capacity-building support.

#HIVCARETOOLS

Help us spread the word about HIV Care Tools. We have developed a series of drag-and-drop campaign resources for easy social sharing. Visit https://aidsetc.org/app to download campaign resources and for more information.

This project is supported by the Health Resources & Services Administration of the U.S. Department of Health and Human Services.

This resource was developed by the AETC National Coordinating Resource Center of the AETC Program under the Ending the HIV Epidemic initiative.
