

AETC Program regional centers and special projects provide training, capacity-building support, and expertise along the HIV care continuum nationally.

AETC Program national centers provide resources, technical assistance, and clinical advice to healthcare professionals.

AETC National Coordinating Resource Center provides:

- National HIV Training Curricula
- Virtual Resource Library
- AETC Program Directory & Calendar
- Marketing & Communication Services
- Group Facilitation & Collaboration
- The Annual Ryan White HIV/AIDS Program Clinical Conference

Subscribe for updates about new training materials, resources, events, and more from the AETC Program, and federal partners and collaborators.
