
**Federal Training Centers
Collaborative (FTCC)**

Overview

Introduction

The members of the Federal Training Center Collaborative (FTCC) are federally funded training and technical assistance centers with complementary missions. The FTCC is committed to the goals of 1) increasing collaboration in the prevention and treatment of Sexually Transmitted Diseases (STDs), Human Immunodeficiency Virus (HIV)/Acquired Immunodeficiency Syndrome (AIDS), Viral Hepatitis, Tuberculosis (TB), behavioral health disorders, and the management and promotion of sexual and reproductive health; and 2) maximizing the use of federal resources to help meet the training and organizational capacity building needs of the health care and public health workforce engaged in promoting health and reducing health disparities.

This document introduces you to each member of the FTCC and its structure, scope of work, target audience, and national priorities. More information regarding training and technical assistance services can be found on each member's website.

Members of the Federal Training Centers Collaborative (FTCC) Overview

AIDS Education and Training Centers (AETCs): www.aidsetc.org
